# MONTANA THEATRE

## FALL 2015

# FILM FESTIVAL

### FILMS, DATES AND SYNOPSES

#### LOVE AND MERCY

OCTOBER 1—Love & Mercy presents an unconventional portrait of Brian Wilson, the mercurial singer, songwriter and leader of The Beach Boys. Set against the era defining catalog of Wilson's music, the film intimately examines the personal voyage and ultimate salvation of the icon whose success came at extraordinary personal cost. (PG-13 for drugs and language)

#### ME AND EARL AND THE DYING GIRL

OCTOBER 8—Winner of the Grand Jury Prize and the Audience Award at the 2015 Sundance Film Festival, "Me and Earl and the Dying Girl" is the uniquely funny, moving story of Greg (Thomas Mann), a high school senior who is trying to blend in anonymously, avoiding deeper relationships as a survival strategy for navigating the social minefield that is teenage life. He even describes his constant companion Earl (RJ Cyler), with whom he makes short film parodies of classic movies, as more of a 'co-worker' than a best friend. But when Greg's mom (Connie Britton) insists he spend time with Rachel (Olivia Cooke) — a girl in his class who has just been diagnosed with cancer — he slowly discovers how worthwhile the true bonds of friendship can be. (PG-13 for sex, drugs, language)

#### UNBRANDED

OCTOBER 15— Sixteen mustangs, four men, one dream: to ride border to border, Mexico to Canada, up the spine of the American West. The documentary tracks four fresh-out-of-college buddies as they take on wild mustangs to be their trusted mounts, and set out on the adventure of a lifetime. Their wildness of spirit, in both man and horse, is quickly dwarfed by the wilderness they must navigate: a 3,000-mile gauntlet that is equally indescribable and unforgiving. (PG-13 for unsettling images, language)

#### AMY

OCTOBER 22—The story of Amy Winehouse in her own words, featuring unseen archival footage and unheard tracks. (Rated R for language and drugs)

#### MR. HOLMES

OCTOBER 29—Mr. Holmes is a new twist on the world's most famous detective. In 1947, an aging Sherlock Holmes returns from a journey to Japan, where, in search of a rare plant with powerful restorative qualities, he has witnessed the devastation of nuclear warfare. Now, in his remote seaside farmhouse, Holmes faces the end of his days tending to his bees, with only the company of his housekeeper and her young son, Roger. Grappling with the diminishing powers of his mind, Holmes comes to rely upon the boy as he revisits the circumstances of the unsolved case that forced him into retirement, and searches for answers to the mysteries of life and love—before it's too late. (PG for disturbing images and smoking)

#### GRANDMA

NOVEMBER 5—Elle Reid has just gotten through breaking up with her girlfriend when her granddaughter Sage unexpectedly shows up needing 600 dollars before sundown. Temporarily broke, Grandma Elle and Sage spend the day trying to get their hands on the cash as their unannounced visits to old friends and flames end up rattling skeletons and digging up secrets. (Rated R for language and drugs)
