Study at Home

Unable to attend Learning Center hours during the day? Need to complete your high school equivalency or improve your skills for a job or college? We have a good online program with teaching videos and exercises to help you in all five subject areas of the HiSET as well as math, reading, and writing skills for brush-up. Students need to complete a TABE test, which can be done online, and commit to work weekly online. Space is limited, so contact the Learning Center to reserve your spot!
